## Cookie Sheet Games

To increase participation in cooperative play, convert a cookie sheet into an accessible board game. Adhere colorful electrician's tape to the sheet and create a grid for tic-tac-toe. Play the game using magnetic X's and O's or glue magnets to poker chips to create your own pieces. Add plastic loops to the poker chips to assist students with decreased fine motor skills. Adapt simple puzzles by attaching magnetic tape to individual pieces to help students slide pieces together.

Idea from Project Participate, University of Colorado Health Science Center, 4200 E. 9th Avenue, C268-20 Denver, CO 80262 Phone: 303-315-2318 Fax: 303-315-5641 email: [info@projectparticipate.org](mailto:info@projectparticipate.org) web: <http://www.projectparticipate.org/>

These ideas have been gathered from various resources included (a) submissions from early interventionists across the country, (b) development by Tots-n-Tech staff, or (c) retrieved from various websites focusing on assistive technology. If you have an idea to submit, please send a description and photo to: [jill.McLeod@jefferson.edu](mailto:jill.McLeod@jefferson.edu)
